## THE CHALLENGES

- Improve customer retention.

## THE SOLUTION

Oracle Lighting implemented their VIP Rewards Program using Zinrelo’s loyalty rewards platform. Before they launched multiple promotion strategies. To understand the impact of a rewards program, Oracle Lighting chose a small set of customers for the test and divided them into two groups, Group 1 (test group) and Group 2 (control group). Group 2 members were not eligible for any reward redemptions. A/B Testing was carried out, to measure the impact of having a rewards program on the groups.
